*Offered exclusively through the worldwide
PermaShrink Representative Network.*

Re volution[®]

Grinding cost is Based on one 80" x 67mm thick rubber belt processing denim for 11,000,000 meters, being ground every 500,000 meters to a thickness of 45mm and removing 1mm at each Grind.

	<i>Revolution[®] Grinder</i>	<i>Traditional Grinder</i>
<i>Grinding Cloth</i>	x	\$1,815.00
<i>Talc</i>	x	\$484.00
<i>Grind Time</i>	39 Hours	66-88 Hours
<i>Clean-Up Time</i>	x	44-88 Hours
<i>Grinding Cloth Set-Up</i>	x	11 Hours
<i>Grinder Set-Up</i>	3-4 Hours	3-4 Hours

These costs do not include power consumption data which when taken into account is far less on the Revolution grinder.

Quite simply, there is no better way to grind your Sanfor belts. The Revolution grinder offers the greatest cost savings, highest accuracy, surface finish, and safety!
